

Application: GCC Technology Feedback Forum

1. Name(s):

2. Institution(s):

3. Email(s):

4. Career level:

5. Type of technology (e.g., small molecule, antibody, cell therapy, diagnostic, device, digital or technology platform, SaaS) and brief description of how this technology would benefit patients or healthcare providers:

6. Current resources (e.g., funding amount and source) devoted to developing this technology:

7. Have you met with your Technology Transfer Office (TTO)?

If yes, who are you working with in your TTO and what guidance have they proposed?

If not, when do you plan to meet with them?

8. Describe the status of your Intellectual Property (IP). What institutions and/or collaborators will expect to be claimed as inventors in this technology? If a provisional patent has been filed, please provide a link to the application on USPTO.

Application: GCC Technology Feedback. Forum

9. How do you envision your idea making money for you? What do you think you would ultimately be selling and to whom?

10. What is the competitive landscape and what advantages does your idea/invention have compared to existing (or also in development) technologies?

11. What disadvantages does your invention/idea have compared to existing (or also in development) technologies?

12. Have you formed a company?
If yes, please provide a name (and url, if available)

If not, do you plan to form a company?

13. What types of expertise do you need to advance your project? Why?

Application: GCC Technology Feedback. Forum

14. What milestone (or milestones) would you like completed within the next 3 years, and do you have an estimate of the capital requirements to complete these milestones?

15. What is known/assumed about regulatory path needed to bring your technology to patients or healthcare providers?

16. Provide a nonconfidential description of the project (preferably a nonconfidential slide deck of 10-20 slides or a write-up of 1-2 pages). Include a description of the current unmet you are addressing and the technologies/companies that are currently addressing your stated unmet need. ***Please attach either slide deck or write up.**
